sewer line along West Beaufort Road heading west from Turner Street has been installed and a number of new casings for future water and sewer needs have also been installed.

The date for completion of this project is mid-June of this year. People traveling on Turner Street from Cedar Street to West Beaufort Road will have to make a detour in the near future. Work is scheduled to begin in this area the end of February or in early March. The two blocks affected will only be open for emergency vehicles and local residents. Once the bridge roadwork begins Turner Street will be closed to through traffic for an extended period of time.
